A great school - the best environment for my child's disability and education.

Rowan Gate is a fantastic school. The environment is welcoming and friendly and they work with an open door attitude to all. Laura Clarke is a fantastic head teacher. We are delighted with our child's development. Thank you.

Fantastic school, great teachers. I feel happy and confident sending my child there.

I have seen a change in C. He likes Rowan Gate. He has so many friends at school.

My son has made great progress since being at school. All members of staff are great and helpful.

None. I think the school is wonderful! Thank you all.

Having experienced a mainstream environment with my son, I have nothing but praise for this school. They are helpful, caring and very good at their jobs. I am so grateful that my son can experience such a good place.

My son loves getting dressed, goes on transport. He is always happy going on transport. Never gets upset. In school he is very happy. The teacher phones us if there are any concerns at school.

It has been a great school for S. He has come on lots and talking a lot better now and is calmer.

My son has received support from the school since he was 9 months of age, starting with the preschool group. I have always felt welcome and felt the school and staff have everyone associated with the school, best interest at heart.

My child started the school in October 2010 and as each year has gone by my daughter has improved more than I could have ever imagined. She is now in Year 6. She has come on leaps and bounds. It's just a shame she has to move on this year. All staff and children at the school are fantastic and it is a great place to be.

Rowan Gate is fantastic and my son is very happy at school. The teachers are brilliant and always go that extra mile for the children. When I am in the school the children always look happy. All the staff work so hard.

I love the school! I can't speak highly enough of it. My son is so happy and settled and feels very safe and secure there. The staff has taken so much time to learn about my child and his needs and I couldn't ask for more.
