

Cherries E Newsletter

Terms 3 and 4

Our topic is called Rainforests.

Within this topic we will do some art and printing and make a mask. In DT we will be cooking, using chocolate! We will look at what a rainforest is and find out where they are on a map. We will discover the Kayapo tribe who live in the rainforest and facts about the Mayans.

In RE the topics are called 'What do the creation stories teach us' and 'Why is sharing food important on special occasions'

In PHSE the topics are 'Getting on and falling out' and 'Growing and Changing'.

The Science topic for the whole term is called Living things and covers evolution, inheritance and adaptation.

In ICT we will be programming using Scratch to create simple games and then we will be using digital media programmes to create both pictures and sounds.

Our PE is swimming for the first term, striking and fielding games in second half term and also having a dance lesson with the PE coach.

We will also have lots of great Numeracy and Literacy lessons.

We will have weekly homework tasks set on a Friday for the following Friday. Please do help by listening to your child read at home.

Please feel free to ring in or use the home school communication book.

Best wishes

John Ettridge and the Cherries Team
