

A story about
"Why the grown-ups look
different when they help
me in the toilet?"

I'm going to school soon.

When I am at school I
sometimes need to go to
the toilet.

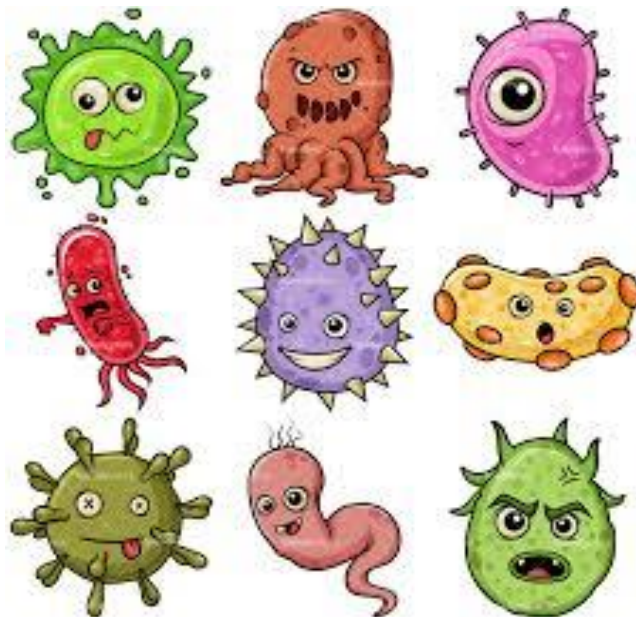

When I go to the toilet a
grown-up comes with me.
They will put on some
gloves.

And they will put on a
mask and an apron.

This is not a problem.
The grown-ups might look
a little strange but I know
they are being safe
because of these things
called germs.

When I am finished we
wash our hands.

Then we go back to my
class.

Grown-ups might look a bit different when we go to the toilet. This is OK!

I will try to remember that it is one of the grown-ups who helps me who is behind the mask.

I will try to remember
that it is one of the
grown-ups who helps me
who is wearing the mask
and I will see their face
again after I have been to
the toilet!
