

a

=

a

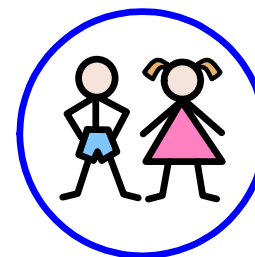

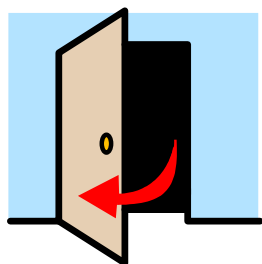

story

about

when

School

is

+

open

for

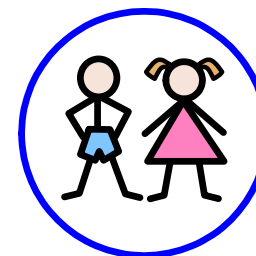

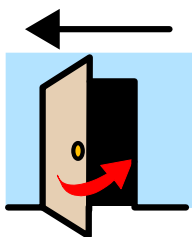

some

of

the

children

and

closed

for

some

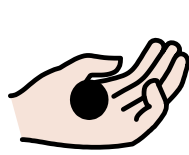

of

the

children

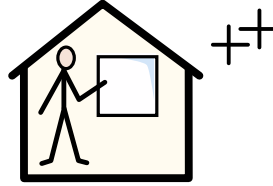

The government

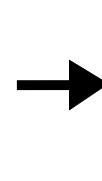

has

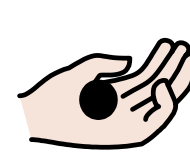

asked

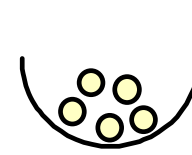

schools

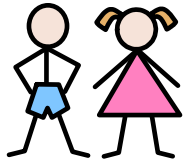

to

have

less

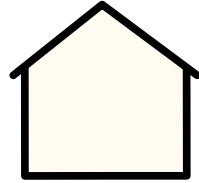

children

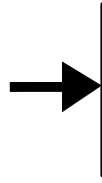

in

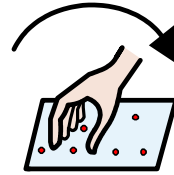

the

building

to

try

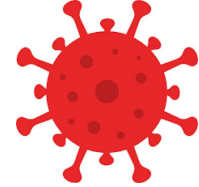

and

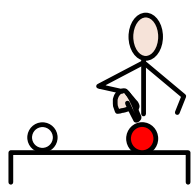

stop

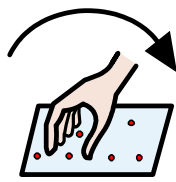

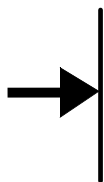

the

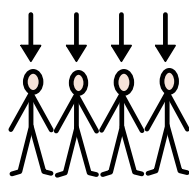

coronavirus.

=

+

This

is

to

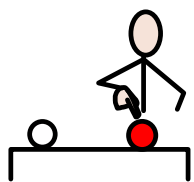

try

and

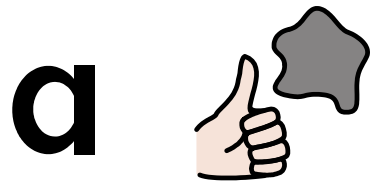

keep

everyone

safe.

=

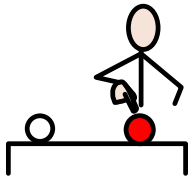

This

is

a

good thing.

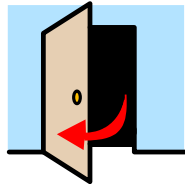

This

means

school

=

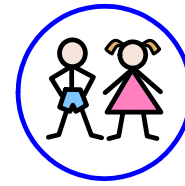

is open

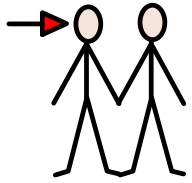

for

some

children.

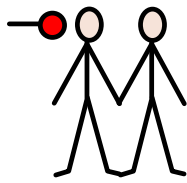

They

will

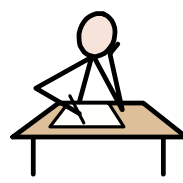

be

doing

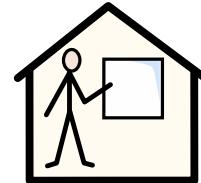

their

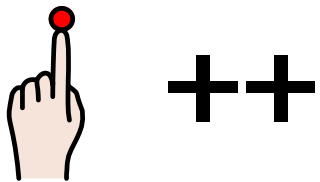

work

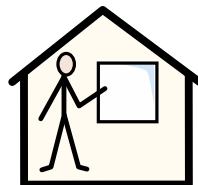

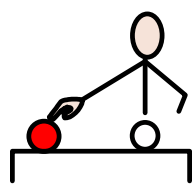

at

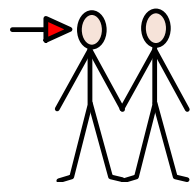

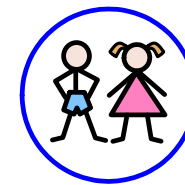

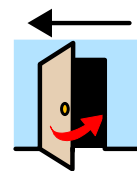

school

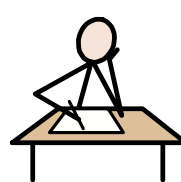

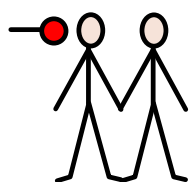

It also means that school is closed for some children.

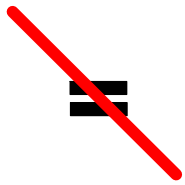

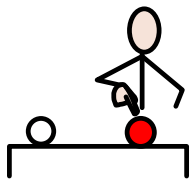

=

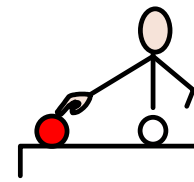

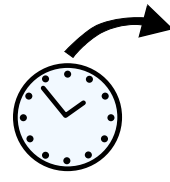

They will be doing their work at home.

a

?!

This

is not

a

problem.

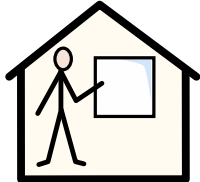

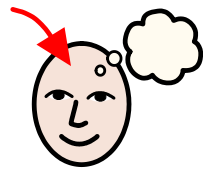

It

just

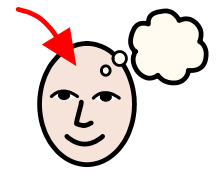

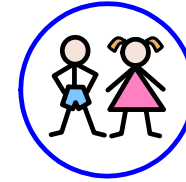

means

that

some

+

children

are

learning

at

school

and

some

children

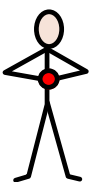

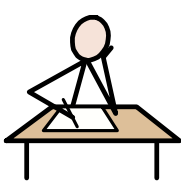

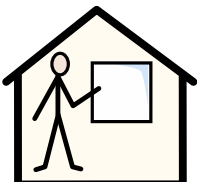

are

learning

at

home.

... **I** -      ... →   → =

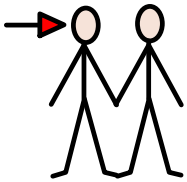

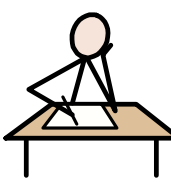

If I am doing my work at school then I will be

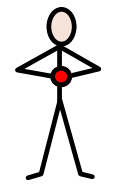

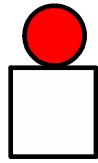

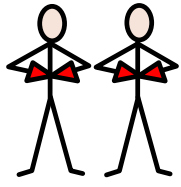

in my classroom.

I  →  

I will see the grown ups

  →     

They will help me with my work

Sometimes

when

we

go

on

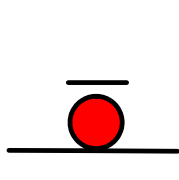

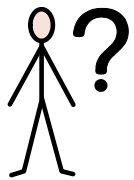

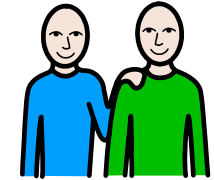

TEAMS

I

might

see

my

friends

who

are

still

at

home

... If I am doing my work at home then I will be

 in my house.

My mum, my dad or someone else will be with me.

They might help me. with my work

When

I

am

at

home

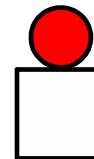

If

I

go

on

TEAMS

I

might

see

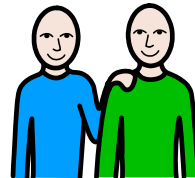

some

of

my

friends

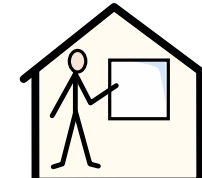

who

are

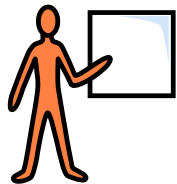

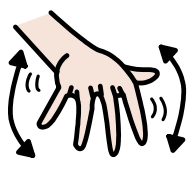

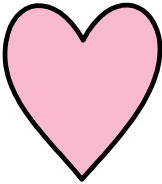

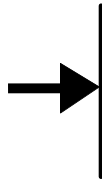

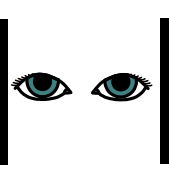

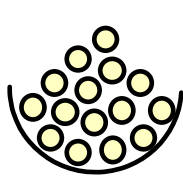

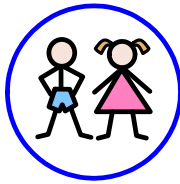

at

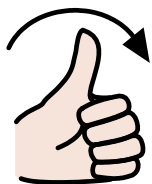

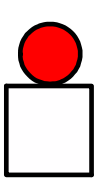

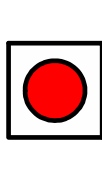

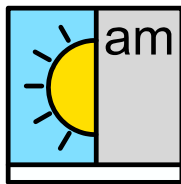

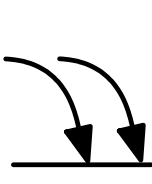

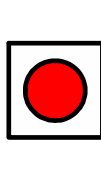

school.

.

        =

My teacher would like to see as many children as

     +  

possible on TEAMS in the morning and again in the

afternoon.

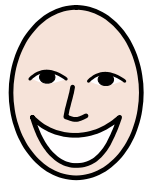

People

will

be

pleased

with

me

if

I

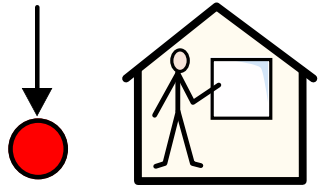

do

my

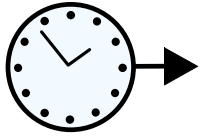

work

at school.

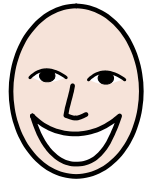

People

will

be

pleased

with

me

if

I

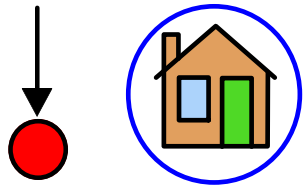

do

my

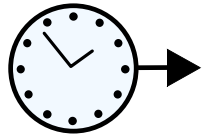

work

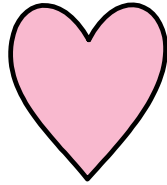

at home.

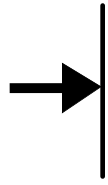

People

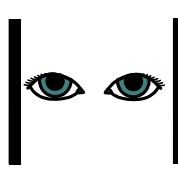

will

like

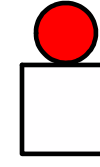

to

see

me

on

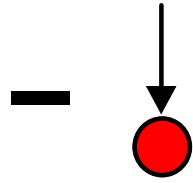

TEAMS

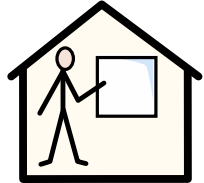

when

I

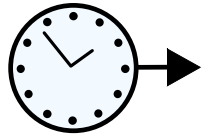

am at

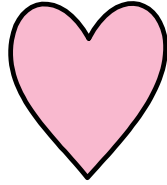

school.

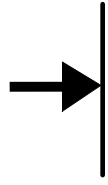

People

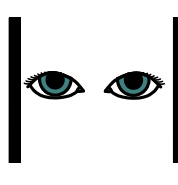

will

like

to

see

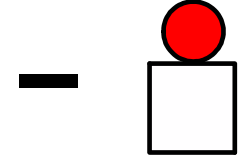

me

when

I

am on

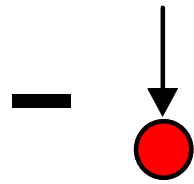

TEAMS

when

I

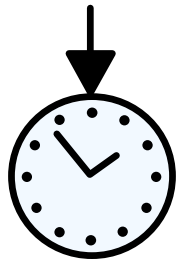

am

at

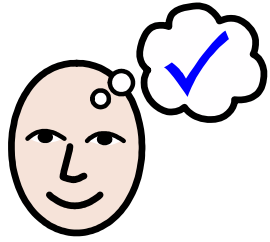

home.

Now

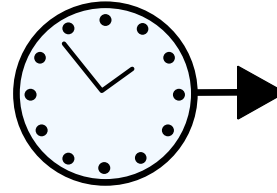

I

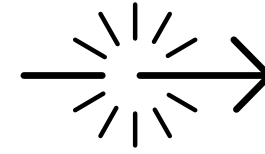

know

what

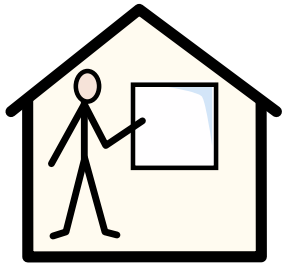

will

happen

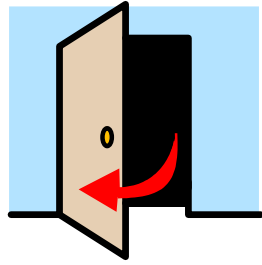

when

school

=

is

open

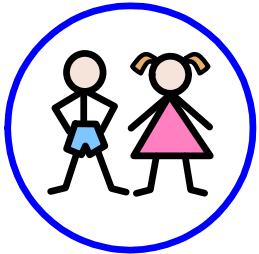

for

some

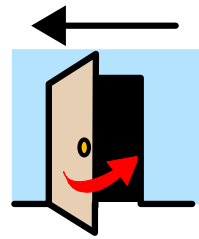

of the

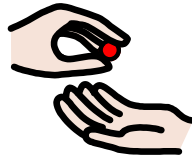

children

+

and

closed

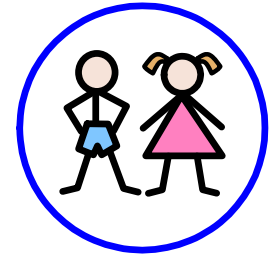

for

some

of the

children
