

LATVIA 2018

This is the school we visited  
in Daugavpils, Latvia.

Every morning we walked to  
school in the snow.

We joined in a music lesson,

a science lesson,

and a PE lesson.

We had lots of fun playing in  
the snow.

We went ice skating

and bowling.

One pupil was on the television  
reading the news when we  
visited some television  
studios.

We used the tram to help us get around Daugavpils.

We visited a Science museum,  
which was lots of fun.

We saw some strange buildings  
that looked as if they were  
falling over.
