

Limes East Newsletter: Spring 2021

Hello and welcome back to Rowan Gate. A big thank you to everyone for taking part in Home Learning last week. It was great to see everyone have a go at something that is new to us all. The Covid 19 pandemic means that school continues to be different but the children have shown great resilience and embraced the changes. We will continue the same process for those children who are carrying on with Home Learning for now.

Reminders (for those coming into school):

Coming to school - for those children who are brought to school by their grown-ups, please arrive at 8.50am and pick-up at 2.50pm. We will continue to meet you at the sign-posted Key Stage 2 gate. If you are late to pick up, we will take your child back into Limes, so not to mix with other classes. We will keep looking out for you!

Reading - your child will read at school at least twice a week. You have a separate reading book and reading record book in your child's school bag. This book is to stay at home. Please share this book and record brief notes in the reading record book, so we know how they are getting on at home with you too! We will change your child's reading books every two weeks.

Homework will continue to be sent via Teams and should be sent back by the following Thursday. Your child should be able to complete this independently and it usually follows the week's theme in either English, Maths or Science.

Use the **home-school book** for us to share information. Please check it each evening just in case there are letters / information. Feel free to pop anything in there that you think we need to know. We check them every morning at school. If you wish to contact me by 'phone please feel free - you may have to leave a message but I will call you back.

Please send in **spare clothing** if you feel your child may need this. We will keep it safely at school and inform you of any accidents.

Morning **snack and lunch** is being eaten in class - thank you for sending in snacks, drinks and lunches.

Kingswood are able to provide lunches, which you can order in the usual way. If your child needs any cutlery - including a cup - please send them in with your child.

Please remember, if your child is unwell please follow the guidelines that you have been sent by the school.

Aldam Mills (Class Teacher), Donna Howe, Sharon Clugston, Natasha Eldridge, Laura Mitea (Thursday).

Topics for the Spring Term 2021

Maths:

Measure - Time

Number and Place Value

Multiplication, Division and Fractions

Geometry - Position, Direction and Motion

Measure - Length, Mass & Capacity

Fractions, Number and Place Value

Data
